DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: claim 16 has been allowed over the prior art because they fail to teach a gas laser, comprising: a gas laser comprising; **a tube having a first end wall at one end and a second end wall the other end, wherein the tube defines a cavity for containing a laser gas therein, and the first end wall includes a port; an electrode system disposed within the tube for generating a laser beam having an optical axis extending longitudinally through the tube and passing through the port; a mounting structure mounted on the first end wall of the tube, the mounting structure comprising an optical element receiving surface and an aperture extending through the receiving surface, wherein the aperture is disposed traverse to the optical axis and is aligned with the port and the optical axis so that the optical axis passes through the aperture; an unitary optical element having a peripheral edge, the peripheral edge being substantially planar with respect to a first direction substantially perpendicular to the peripheral edge; a unitary optical holder comprising; a tubular gripping portion and a tubular extraction portion connected at one end to the tubular gripping portion and having a diameter less than the tubular gripping portion, the tubular gripping portion engaging the peripheral**

edge of the optical element to retain the optical element with the optical holder;
and a retainer having a interior surface engaging an exterior surface of the
tubular extraction portion of the optical holder so as to be slideable along the
exterior portion in a second direction substantially perpendicular to the first
direction, the retainer being engage able with the mounting structure such that
the optical element is positioned against the optical element receiving surface to
form a gas tight seal therebetween; wherein the optical element is disposed
traverse to the optical axis and the optical axis impinges on the optical element.

Claims 17 – 34 has been found allowable due to their dependency on claim 16.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reason for Allowance".
